

# John-Filip Löfgren

Surface Designer

## Profile

With a broad creative history as a musician, digital artist and tinkering through many interests:

A couple of years ago I felt ready to take on education, I started as a student at "Design Technology" class at higher vocational education school YRGO located in Gothenburg, Sweden, to become a 3D Modeler for the product industry. Have a look at my portfolio for details of my creativity.

## Employment History

### TERMINAL WORKER at POSTNORD TPL AB, Norrköping, Sweden

October 2016 — September 2019

I got 3 years of experience from PostNord TPL AB as a warehouse worker. My main tasks was item picking in the fridge and fork-lifting related operations, it required a lot of focus and precision on both areas to match the orders from our customer.

### BASSIST at XMANDIE MUSIC AB, Örebro

November 2014 — October 2016

I tried to take a more serious approach to my music career for a couple of years. I acted as a graphic designer for our web-shop and digital marketing when I was not at the stage slapping the base.

<https://www.facebook.com/normandieofficial>

Long story short: I had a great lot of fun and the experience helped me grow a lot as a person.

### MACHINE OPERATOR at DREISEN AB, Linköping, Sweden

August 2011 — September 2016

I got 5 years of experience as a machine operator at a metal industry (high-temperature heat treatments performed mainly on steel parts for the vehicle and high-tech and tool industry). I was located and had responsibility for their more advanced vacuum related treatments and services.

## Education
